Dear Ed:

I've attended many conferences in my 23 years as a campus minister, including many conferences on the environmental problem from a Christian point of view.

As far as evangelical church and student groups go, your seminar was the best I've yet experienced in terms of laying out a Biblical basis for environmental stewardship, and dealing with the various blocks to responding to the call for stewardship that one finds in these communities.

Frankly, I marvel at your ability to tune in on this community and bring them into a better relationship with God's Creation.

Please let me know if there is anything that I can do to help the cause.

In Christ,

Vernon Visick  
Director  
New College Madison
